

# Connect

Whether it is collaborating, managing a team, interacting with customers or networking, our kids will need to be able to connect well with other people.

Communication, collaboration and social and emotional intelligence will be vital skill sets.

Resource	Audience	Platform	About	Skills
Twitter	High school	Social media training	The small character limits helps kids to be succinct and identify key messages. Interacting on social media is a chance to teach kids how to interact with others and how to stay safe online.	Connect Digital skills
Edutopia	All ages	Website	Section on social and emotional learning explores why these are important skills for kids to learn and different approaches for teachers to build their kids social and emotional skill set.	Connect Problem solving
Social media training	High school	Article	Running "social media training" with your kids is a way to hone your child's communication skills and ensure they are using social media in a safe and positive way.	Connect Digital skills
If...The Emotional IQ Game	Primary school	App	An adventure game that helps kids develop emotional intelligence. As they play, kids are given dialogue choices when engaging with different characters. Those characters will respond with different emotions or advice based on the child's choices. Parents are able to review a report on their children's skills.	Connect
